#### **Example**

Hello.

- 1 Studying is important because it helps us review our lessons and do further research.
- ② I have some study habits and I follow them regularly.
- 3 I always start studying after dinner. First, I begin reviewing my lessons of the day, and I make notes of important information I have learned. Then, I do my homework. I usually work on the easiest subjects first because they don't take long and I can get more work done.

Thank you.
