MEMO

Example

Hello.

I think that online classes are better than face-to-face classes.

- 1 To start with, taking online classes saves time. Students don't have to wake up really early just to travel to school. That means, they can sleep longer or spend extra time on their hobbies.
- 2 Next, with online classes, parents can easily check what their children are learning in their lessons. Face-to-face classes, on the other hand, don't give parents the opportunity to see what their children are studying. It's good for parents to be involved in their children's education.

Thank you.

Hello.

I don't think online classes are better than face-to-face classes.

- 1 For teachers, face-to-face classes are easier to manage than online classes.

 Teachers can observe all students in the classroom, so it's easy for them to help those who are having a hard time.
- Also, face-to-face classes are better for developing students' social skills because they can easily interact with classmates at school. Online classes, on the other hand, don't give students many opportunities to talk with classmates naturally. Sometimes, an internet connection problem prevents them from having a smooth conversation.
