MEMO

**STEP 2** STEP 1 を使って自分の意見を書きましょう。**Example**

Hello.

I think that more people should use digital money.

- ① Paying with digital money is fast and easy. We can scan our smartphones at the cash register to pay.
- ② Additionally, with digital money, we don't have to carry bills and coins. So, our wallets are lighter to carry. It's also very convenient because we don't have to take out our wallets to pay. From now on, I think that more people will use digital money because it's fast, easy, and convenient.

Thank you.

Hello.

I don't think that more people should use digital money.

- ① First of all, not all stores accept digital money. In my city, some small stores only accept cash. I think that cash is the safest way to pay for anything.
- ② Next, digital money can sometimes have security problems. For example, personal information like names and addresses are often stolen by criminals online. Some criminals steal money too. From now on, I think people should be more careful about using digital money.

Thank you.
